ENABLING BRAZIL'S GOALS AND THE LOW-CARBON ECONOMY

The Brazilian Coalition on Climate, Forests and Agriculture – a multi-sector movement formed by over 120 companies, sectoral associations, research centers and civil society organizations – has been working in a dynamic and systemic way since the end of 2014 to tackle climate change through a new low carbon economy. It is based on 17 concrete proposals, as well as principles and commitments listed in the Brazilian Coalition's base document.

In 2015, the Brazilian **Coalition has maintained intensive dialogues** with government and society to discuss the level of ambition that Brazil could adopt in its proposal for the **Paris Agreement**, the INDC (Intended Nationally Determined Contribution). At the end of that year, more than 50 members attended the UN Climate Conference, COP 21, in the French capital.

WATCHING THE PARIS AGREEMENT

- During the COP 21, the Brazilian Coalition participated as **organizer and speaker in ten events**.
- In the Global Landscapes Forum**, one of the most important side events about land use, the Brazilian Coalition set up a booth and organized a debate.
- Six positions were announced**. They covered: expectations for the Paris Agreement, bases for low-carbon agriculture, forest restoration, timber traceability to combat illegal deforestation, carbon valuation and the importance of the REDD+ mechanism.
- The **movement has also distributed public notes** to communicate the society about the progress and conclusions of the negotiations.

A NEW DEVELOPMENT MODEL

Brazil's commitments related to the Paris Agreement, and the Brazilian Coalition's proposals, address a new development model for the country. The movement's contributions to this include:

- The working groups focus on **goals to implement the climate change agenda;**
- Completion of macroeconomic studies, with costs and benefits of promoting **forest restoration** of 12 million hectares, **deploying low-carbon agriculture** on a large scale and increasing tenfold the **forest management** in the country;
- National advocacy efforts** to make the climate change agenda strategic for the country's development;
- Increase cooperation internationally.**

GOALS IN 2016

Each working group in the Brazilian Coalition listed **goals** in order to assist the Brazilian commitment to the climate and fulfill the national laws and policies targeting low-carbon economy.

- 1 Bioenergy -**
National policy for bioenergy valuation and global standardization of biofuels
- 2 Forest Code -**
Implementation of the Forest Code
- 3 International Cooperation -**
Dissemination of good practices and cooperation for dissemination
- 4 Low-Carbon Agriculture -**
Dissemination of high profitability and low carbon emission programs
- 5 Restoration -**
Matrix of information and opportunity; research program for forestry of native species
- 6 Tropical Forest Economy -** Native forest management transparency
- 7 Valuation and Ecosystem Services -** National strategy for REDD+; payment for ecosystem services; carbon pricing

COMMUNICATION

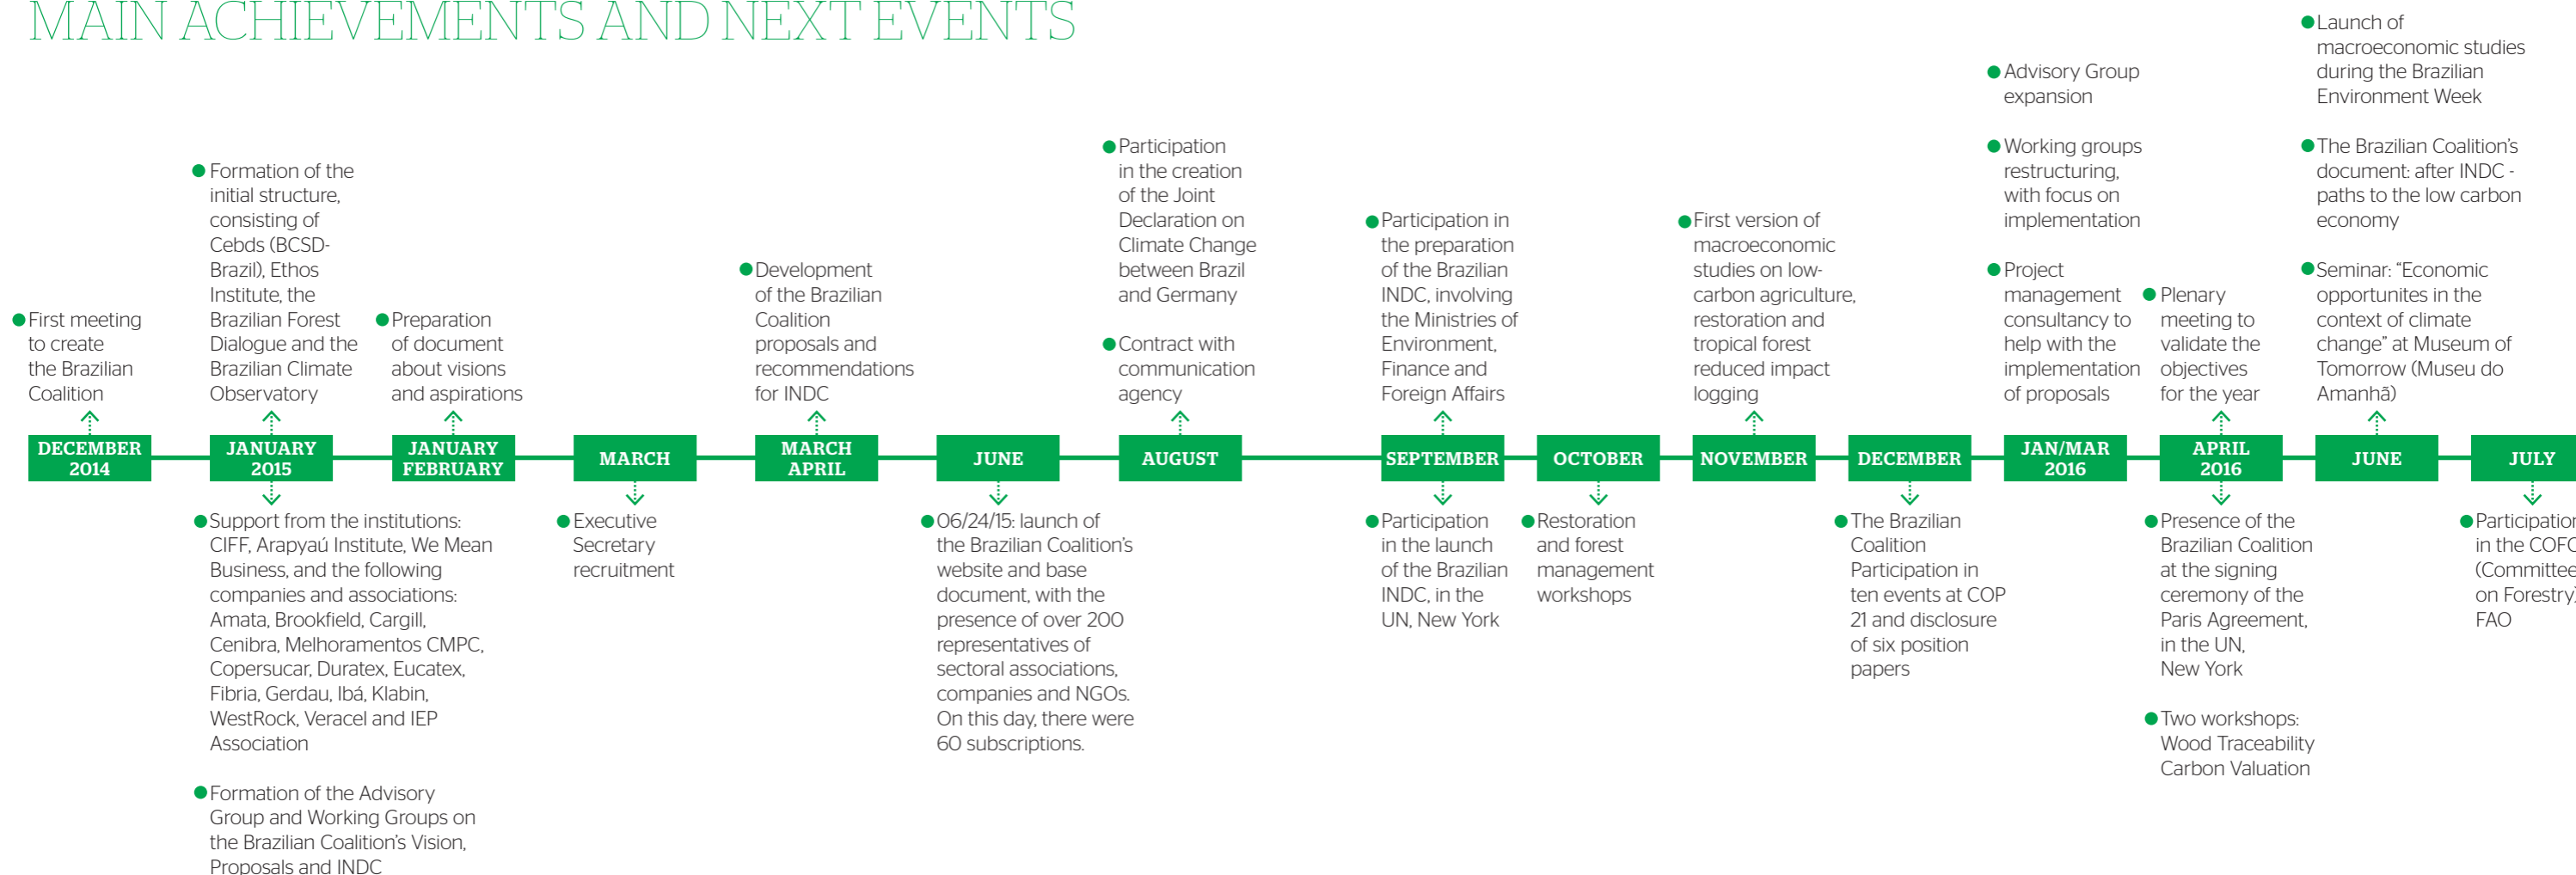

HIGHLIGHTS

Part of the Brazilian Coalition's mission is to inform society on the progress of their proposals and the climate agenda. Between September and December 2015, the movement produced **15 position papers**, which resulted in **400 inserts in printed and online media, radio and TV**, including major nationwide media and specialized media.

POSITIVE TRANSFORMATIONS

The engagement of all sectors of the society to the climate agenda is essential to bring economic, environmental and social sustainability to the planet. The Brazilian Coalition engages different actors resulting in an alignment between different stakeholders involved in the land use and low carbon economy agenda to assist the country to move towards a new economic development model.

MAIN ACHIEVEMENTS AND NEXT EVENTS

***MEMBERS OF THE BRAZILIAN COALITION ON CLIMATE, FORESTS AND AGRICULTURE**

- 1** Abag - Associação Brasileira do Agronegócio
- 2** ABBI - Associação Brasileira de Biotecnologia Industrial
- 3** ABCZ - Associação Brasileira de Criadores de Zebu
- 4** Abiove - Associação Brasileira das Indústrias de Óleos Vegetais
- 5** ABPMA - Associação Brasileira dos Produtores de Mogno Africano
- 6** Agrícola Conduru
- 7** Agroicone
- 8** Agropalma
- 9** Agrosatélite Geotecnologia Aplicada
- 10** AMA Brasil - Associação dos Misturadores de Adubos do Brasil
- 11** Amaggi
- 12** Amata
- 13** Apremavi - Associação de Preservação do Meio Ambiente e da Vida
- 14** Arapar Participações
- 15** Asboasnovas
- 16** ATA Consultoria
- 17** Atrium Forest Consulting
- 18** Biofilica
- 19** Brookfield
- 20** BvRio - Bolsa de Valores Ambientais
- 21** Cargill
- 22** Carrefour
- 23** Cause
- 24** CDP
- 25** Cebds - Conselho Empresarial Brasileiro para o Desenvolvimento Sustentável
- 26** Cenibra
- 27** Centro de Sensoriamento Remoto (CSR) da UFMG
- 28** CI - Conservação Internacional
- 29** Copersucar
- 30** Corredor das Onças ARIE Matão de Cosmópolis/ ICMBio
- 31** Corredor Ecológico do Vale do Paraíba
- 32** Crível Comunicação
- 33** Danone
- 34** Diálogo Florestal
- 35** Duratex
- 36** Ecofuturo
- 37** Editora Horizonte
- 38** Eldorado Brasil Celulose
- 39** Envolverde
- 40** Etel Carmona
- 41** Eucatex
- 42** FAS - Fundação Amazonas Sustentável
- 43** Fauna & Flora International
- 44** FBDS - Fórum Brasileiro de Desenvolvimento Sustentável
- 45** Fibria
- 46** Firmenich
- 47** Fórum Clima
- 48** FSC Brasil
- 49** Fundação Avina
- 50** Fundação Grupo Boticário de Proteção à Natureza
- 51** GCN Advogados
- 52** Geoflorestas Soluções Ambientais
- 53** Gerdau
- 54** Grupo Boticário
- 55** Grupo Libra
- 56** Grupo Lorentzen
- 57** Grupo Pau Campeche
- 58** Grupo Plantar
- 59** GTA - Grupo de Trabalho Amazônico
- 60** GTPS - Grupo de Trabalho da Pecuária Sustentável
- 61** GVces - Centro de Estudos em Sustentabilidade da FGV-EAESP
- 62** Ibá - Indústria Brasileira de Árvores
- 63** IBIO - Instituto Bioatlântica
- 64** ICLEI - SAMS
